

The ISO 18788 standard provides a Management System framework for Private Security Operations through elaborating on the principles and requirements for establishing, implementing, operating, monitoring, reviewing, maintaining and improving the management of safety operations.

ISO 18788 provides a business and risk management framework for the effective conduct of security operations. It places a strong importance in identifying your stakeholders, including employees, customers, local communities and subcontractors. Moreover, this standard provides assurance in the quality and expertise of security organizations working in complex and fragile environments.

ISO 18788 MANAGEMENT SYSTEMS CERTIFICATION

ISO 18788 certification (also known as “registration”) is a third-party audit performed by a certification body such as PECB which upon verification that an organization is in compliance with the requirements of ISO 18788, will issue an ISO 18788 certificate. This certification is then maintained through regularly scheduled annual surveillance audits by the registrar, with re-certification of the Private Security Operations Management Systems performed on a triennial basis.

Benefits of ISO 18788 certification to your organization:

- Imposes credibility and helps protect your reputation
- Boosts the probability of operational success
- Provides assurance for customers, governments and communities
- Demonstrates accountability to law and respect for human rights
- Increases organizational productivity with the best practice “Plan, Do, Check, Act” approach
- Presents consistent and comprehensive means of demonstrating effective corporate governance from board level to physical delivery

Benefits of ISO 18788 to your customers:

- Helps your customers protect their reputation
- Provides commitment to security operations best practices
- Demonstrates compliance with legal obligations and relevant principles
- Provides adherence to human rights and fundamental freedoms

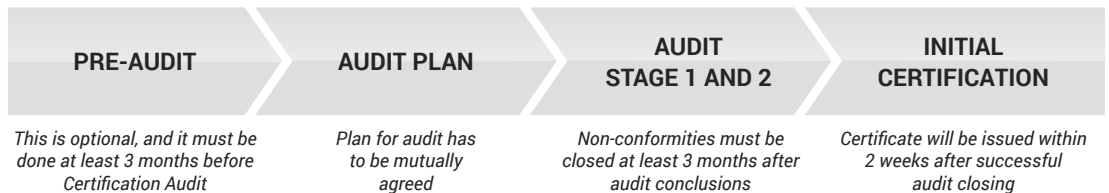

PECB is a certification body for persons, management systems, and products on a wide range of international standards. As a global provider of training, examination, audit, and certification services, PECB offers its expertise on multiple fields, including but not limited to Private Security Operations Management.

We help organizations to show commitment and competence with internationally recognized standards by providing this assurance through the education, evaluation and certification against rigorous, internationally recognized competence requirements. With a global coverage of more than 1000 partners in over 150 countries worldwide, our mission is to provide our clients comprehensive services that inspire trust, continual improvement, demonstrate recognition, and benefit society as a whole.
