

ISO 22301
BUSINESS CONTINUITY
MANAGEMENT SYSTEMS
CERTIFICATION

Every organization nowadays needs to be secured towards disruptions, incidents, inside and outside threats. The ISO 22301 Business Continuity standard has been developed to protect companies against threats, reduce their likelihood, and ensure your business recovers from disruptive incidents.

An effective business continuity management system (BCMS) will help organizations develop and maintain a best practice approach to respond effectively to any disruption, by implementing continuous improvement tools and techniques.

ISO 22301 certification (also known as “registration”) is a third-party audit performed by a certification body such as PECB who, upon verification that an organization is in compliance with the requirements of ISO 22301, will issue an ISO 22301 certificate. This certification is then maintained through regularly scheduled annual surveillance audits by the registrar, with re-certification of the Business Continuity Management System performed on a triennial basis.

Benefits of ISO 22301 certification to your organization:

- Establishes a framework to identify, reduce, and manage threats for your organization
- Increases organizational productivity with “Plan, Do, Check, Act” best practice approach
- Demonstrates compliance with customer, regulatory and/ or other requirements
- Decreases the internal and external business continuity audit costs
- Improves incident response time and minimize the threats
- Gains competitive advantage with an internationally acknowledged standard
- Increases client confidence and demonstrate resilience
- Provides continual assessment and improvement

Benefits of ISO 22301 certification to your customers:

- Improved service and security
- Increased confidentiality
- Regulated legal compliance
- Fewer incidents and damages
- Top client delivery levels

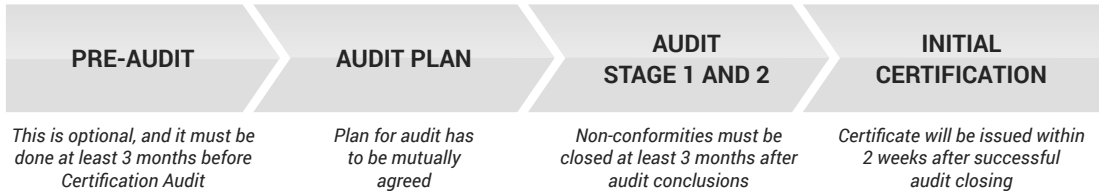

PECB is a certification body for persons, management systems, and products on a wide range of international standards. As a global provider of training, examination, audit, and certification services, PECB offers its expertise on multiple fields, including but not limited to Business Continuity Management.

We help organizations to show commitment and competence with internationally recognized standards by providing this assurance through the education, evaluation and certification against rigorous, internationally recognized competence requirements. With a global coverage of more than 900 partners in over 150 countries worldwide, our mission is to provide our clients comprehensive services that inspire trust, continual improvement, demonstrate recognition, and benefit society as a whole.
