

ISO/IEC 27001
INFORMATION SECURITY
MANAGEMENT SYSTEMS
CERTIFICATION

ISO/IEC 27001 Information Security Management Systems standard ensures that your organization keeps information assets safe and secure, by building an information security infrastructure against the risks of loss, damage or any other threat.

Companies that obtain ISO/IEC 27001 certification validate that the security of financial information, intellectual property, employee details, assets or information entrusted from third parties is being successfully managed and continually improved according to best practice approaches and frameworks.

ISO/IEC 27001 certification (also known as “registration”) is a third-party audit performed by a certification body such as PECB who, upon verification that an organization is in compliance with the requirements of ISO/IEC 27001, will issue an ISO/IEC 27001 certificate. This certification is then maintained through regularly scheduled annual surveillance audits by the registrar, with re-certification of the Information Security Management System performed on a triennial basis.

Benefits of ISO/IEC 27001 certification to your organization:

- Provides physical and environmental security across all management processes
- Provides you with a competitive advantage
- Reduces costs due to incident and threat minimization
- Demonstrates compliance with customer, regulatory and/or other requirements
- Sets out areas of responsibility across the organization
- Communicates a positive message to staff, customers, suppliers and stakeholders
- Integration between business operations and information security
- Alignment of information security with the organization’s objectives
- Puts forward true value through enhancement of marketing opportunities

Benefits of ISO/IEC 27001 certification to your customers:

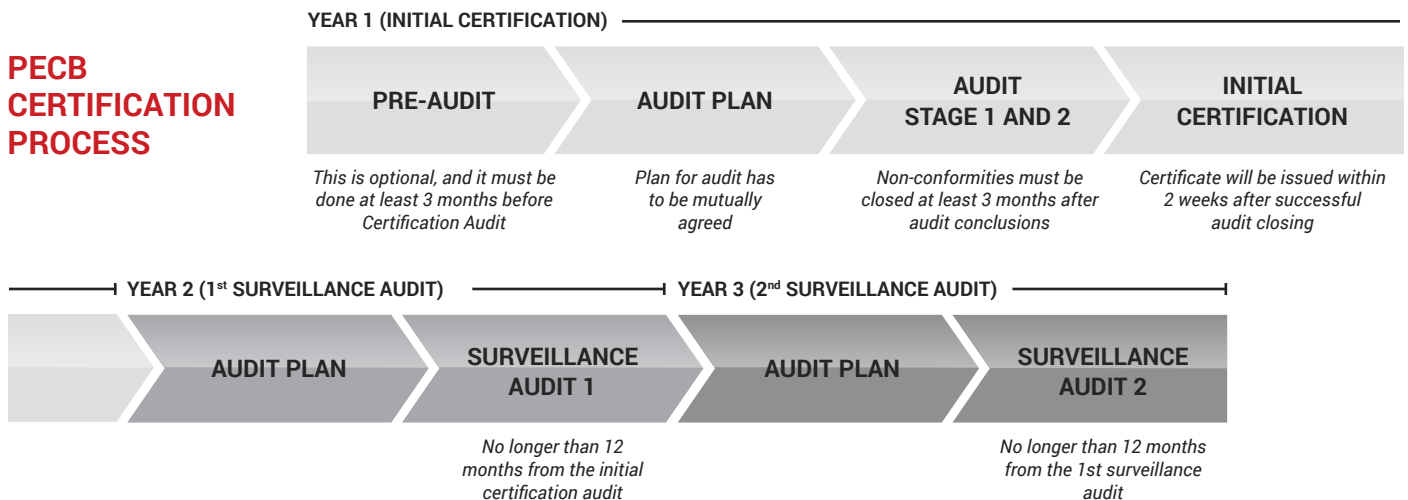

- Keeps customers intellectual property and valuable information secure
- Provides customers and stakeholders with confidence in how you manage risk
- Secures exchange of information
- Ensures customers that you are meeting your legal obligations
- Enhances satisfaction of the delivery of your service or prod

PECB is a certification body for persons, management systems, and products on a wide range of international standards. As a global provider of training, examination, audit, and certification services, PECB offers its expertise on multiple fields, including but not limited to Information Security Management.

We help organizations to show commitment and competence with internationally recognized standards by providing this assurance through the education, evaluation and certification against rigorous, internationally recognized competence requirements. With a global coverage of more than 900 partners in over 150 countries worldwide, our mission is to provide our clients comprehensive services that inspire trust, continual improvement, demonstrate recognition, and benefit society as a whole.
