

ISO/TS 29001 specifies
Quality Management System
requirements for the petroleum,
petrochemical and natural gas
industries. Its main aim is to
enhance customer trust and
confidence on daily operations
through the effective application
of the system, as well as the
implementation of continual
improvement processes,
conformity assurance and
regulatory requirements.

The oil and gas industry requires systematic, rigorous checks and any negligence could lead to huge, unrepairable losses. It is of crucial importance to have a Quality Management System in place that facilitates the monitoring of every operating procedure within the organization. ISO/TS 29001 PECB certification, therefore, is the path that ensures the desired quality in your organization.

Benefits of ISO/TS 29001 Certification to your company:

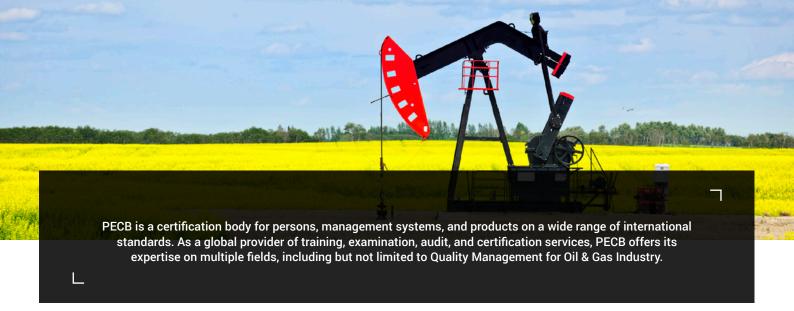

- Increased efficiency and revenue
- Improved supplier relationships
- Secure environment for your company

- Reduced product and supply chain waste
- Monitored performance and continual improvement
- International recognition

Benefits of ISO/TS 29001 certification to your customers:
